Brown Sugar Bread

Dairy-free | KBS MBF-010 | 1.5 lb loaf | Sweet, soft, and pleasantly chewy

The loaf: A dependable brown-sugar yeast bread with enough sweetness to notice, but a true bread texture: soft inside, pleasantly chewy, and excellent fresh or toasted.

INGREDIENTS

INGREDIENT	VOLUME	WEIGHT / NOTE
Water, lukewarm	1 cup + 2 Tbsp	266 g
Neutral oil	2 Tbsp	28 g
Brown sugar, packed	1/4 cup	53 g
King Arthur Bread Flour	3 cups	360 g
Fine salt	1 1/4 tsp	7 g
Instant / bread-machine yeast	2 tsp	6 g

MACHINE SETTINGS

Cycle:	Basic / White Bread
Loaf size:	1.5 lb
Crust:	Medium
Dispenser:	Not used

Check the dough during the first knead.

Aim for a smooth, elastic, slightly tacky ball.
Too wet: add flour 1 Tbsp at a time.
Too dry: add water 1 tsp at a time.

METHOD

1. Add the lukewarm water, neutral oil, and packed brown sugar to the bread pan.
2. Add the bread flour and salt. Place the yeast where your machine normally calls for it, keeping it dry until mixing begins.
3. Place the bread pan in the machine and close the lid. The automatic dispenser is not needed for this loaf.
4. Select Basic / White Bread, 1.5 lb loaf, and Medium crust.
5. During the first knead, check the dough. It should form a smooth, elastic, slightly tacky ball that mostly clears the sides of the pan.
6. When baking is complete, remove the loaf from the pan and cool fully on a rack before slicing so the crumb can set.

WHAT TO EXPECT

A lightly caramel-like brown-sugar aroma with a soft interior and enough gluten structure for a satisfying chew. The loaf is sweet enough for breakfast or toast, but still balanced enough for sandwiches and savory pairings.

Easy variation - Dark Brown Sugar

Use the same 1/4 cup (53 g) amount, but choose dark brown sugar for a deeper molasses note without changing the formula.
